FEAT-Houston

Families for Effective Autism Treatment

Our vision is to meet the needs of families and professionals for training services that enable them to support the rapidly growing population of children, teens and adults with autism as they seek meaningful lives throughout the Greater Houston area.

Founded by a half dozen families in 1995, Families for Effective Autism Treatment (FEAT) – Houston continues to advance its mission to improve the quality of life of those affected by developmental disabilities by increasing resources and providing information about scientifically validated treatment approaches, particularly intervention based upon applied behavior analysis (ABA). FEAT-Houston is a 501(c) (3) non-profit organization.

Through our family and educator support programs, including training workshops and scholarships for teachers, parents and university students, we have seen many lives changed for the better. In addition to our website, e-mailing list (1,700+), and newsletter (700+), FEAT-Houston hosts meetings and workshops to disseminate much-needed information.
